

Activated Carbon Filters

Whole House Filters for Chlorine, Taste, Odor and Sediment Reduction.

Northwest Water Treatment, Inc. offers a wide range of water filtration systems designed to improve the water quality to your home. Our approach includes on site water analysis and inspection of your existing water system to assure the correct filter system is recommended to you.

Our activated carbon filters are highly popular because they correct a wide range of water quality problems by removing chlorine, tastes, odors and sediment.

Benefits

- Great tasting water from every tap in your house!
- No bad tastes or foul odors
- Crystal clear water for drinking, bathing and cooking!
- Low maintenance due to automatic operation.

NWT 1054 and 1252 Filters

Clack[®] Dot Matrix control valves include a microprocessor and backlit screen with push button settings for ease of use. The metered control valves provide better water efficiency by performing a backwash based on water consumption, plus diagnostics with valve history including gallons filtered. The Matrix control valve indicates a “call for service” alarm when a scheduled maintenance is recommended.

Matrix Control Valve

Models with WS1 or Matrix Control Valves

Part Number	Valve	Mineral Tank Size	Media Cubic Ft.	Gravel (Lbs)	Service Flow (GPM)	Drop (PSI)	Back Wash (GPM)	Floor Space LxWxH
NWT 948-WS1-M-AC	Meter BW	9X48	1	None	4	< 15	4.2	16X10X55
