

# Watts® Water Conditioners with Vortech® Tanks

**Northwest Water Treatment, Inc.** offers a wide range of water conditioning systems designed to improve the water quality to your home. Our approach includes on site water analysis and inspection of your existing water system to assure the correct water conditioner is recommended to you.

Our **Watts** water softening/conditioning systems remove troublesome hardness elements, including soluble iron and manganese from your water supply. Dual media softeners include KDF 85 filter media for reduction of low levels of hydrogen sulfide (rotten egg odor).

## Features & Benefits

- Brighter, softer laundry and reduction in soap usage.
- Manageable hair because shampoo works better.
- Pipes remain free of calcium scale build-up.
- Extended life of appliance and reduced energy costs because scale is virtually eliminated.
- Eliminate stains caused by dissolved iron and manganese.

Clack® Metered valves are metered for greater efficiency and reduced salt usage, because regeneration of the softener resin is based on water consumption. Push button settings provide ease-of-use.

## Complete System

## Metered Valve For Greater Efficiency

The models listed below are complete systems including

- CK-10 high flow, metered valve.
- Vortech® mineral tank with media.
- 18" x 40" black brine tank with float.
- 1" By-pass valve.

## Models

Model Number	Max Capacity (Grains)	Media Cu.Ft.	Valve Type	Connection	Mineral Tank Size	Brine Tank Size	Safety Float Valve
NWT 948-CK10-M	30,000	1.0 Resin	Metered	1"	9"x48"	18"x40"	Yes
NWT 1054-CK10-M	45,000	1.5 Resin	Metered	1"	10"x54"	18"x40"	Yes
NWT 1252-CK10-M	60,000	2.0 Resin	Metered	1" – 1.25"	12"x52"	18"x40"	Yes
NWT 1465-CK10-M	90,000	3.0 Resin	Metered	1" – 1.25"	14"x65"	18"x40"	Yes
NWT 1665-CK10-M	120,000	4.0 Resin	Metered	1.25" – 1.5"	16"x65"	24"x40"	Yes
NWT 1054-CK10-DML-M	30,000 + Odor Reduction	1.0 Resin 28 lb KDF	Metered	1"	10"x54"	18"x40"	Yes
